1. Getting Started

System Requirements

- Android phone or tablet running **Android 8.0 (Oreo)** or higher
- Active internet connection (4G/LTE or Wi-Fi)
- GPS / Location Services must be turned ON
- At least **100 MB** free storage space

Installing the App

Option A — Via APK (Direct Install)

1. Download `Refa.apk` from the `apk/` folder in this repository
2. Open the downloaded file on your Android phone
3. If you see a security warning, go to:

Settings → Security → Install Unknown Apps → Allow

4. Tap **Install** → **Open**

Option B — Via Android Studio (Developers)

1. Clone the repository and open the `TransportApp/` folder in Android Studio
 2. Connect your Android phone via USB with Developer Mode enabled
 3. Click the **Run**  button
-

2. Creating an Account

1. Open the Refa app

2. On the login screen, tap **"Don't have an account? Sign Up"**
3. Fill in the form:
 - **Full Name** — Your real name (shown to driver)
 - **Email Address** — Used for login
 - **Phone Number** — Pakistani number (shown to driver during ride)
 - **Password** — Minimum 6 characters
4. Tap **"Create Account"**
5. You will be automatically logged in and taken to the Home screen
6. Your Refa Wallet starts with **Rs. 400** as a welcome balance

Tip: Use a real phone number — it is shared with your driver during an active ride so they can contact you if needed.

3. Logging In

1. Open the Refa app
2. Enter your **Email Address** and **Password**
3. Tap **"Sign In"**
4. If you are a registered driver, you will be taken to the **Driver Dashboard** automatically
5. If you are a passenger, you will be taken to the **Home Dashboard**

4. Passenger Mode — Booking a Ride

Step 1: Check Your Location

- The app shows your current location address at the top of the Home screen
- Make sure **Location / GPS is enabled** on your phone
- If location shows "Getting your location...", wait 5–10 seconds or check GPS settings

Step 2: Select Your Destination

1. Tap the **"Where to?"** search field on the Home screen
2. A full-screen Google Map will open
3. Move the map so the **blue pin** points to your destination
4. Tap **"Confirm Destination"**

Step 3: Choose Your Vehicle Type

After selecting a destination, four vehicle options appear:

Vehicle	Best For	Example Fare
■ Bike	Short solo trips, fastest, cheapest	Rs. 50–150
■ Rickshaw	Budget-friendly, short distances	Rs. 80–200

Vehicle	Best For	Example Fare
■ Car	Comfortable, family-friendly	Rs. 150–400
■ Premium	AC sedan, special occasions	Rs. 250–600

Fares are calculated based on the **actual road distance** using Google Directions API.

Step 4: Book Your Ride

1. Tap your preferred vehicle type to select it
2. Review the fare shown on the button
3. Tap "**Book [VehicleType]**"
4. The screen will show "**Searching for a driver nearby...**"
5. Wait for a driver to accept your request

Important: Make sure your Refa Wallet balance is enough for the fare. If not, top up from the wallet card before booking.

5. Understanding Fares

Fares are calculated automatically using this formula:

$$\text{Base Fare} + (\text{Distance in KM} \times \text{Per-KM Rate})$$

Vehicle	Base Fare	Per KM
Bike	Rs. 30	Rs. 15/km
Rickshaw	Rs. 50	Rs. 20/km
Car	Rs. 80	Rs. 35/km
Premium	Rs. 150	Rs. 60/km

- Fares are displayed **before you book** — no surprises
- The fare shown is the **exact amount** deducted from your wallet
- Wallet deduction happens automatically when the ride is marked **Completed** by the driver

6. Active Ride — Tracking Your Driver

Once a driver accepts your request:

1. The Home screen shows an **Active Ride Banner** with:
 - Driver name
 - Ride status (CONFIRMED → ARRIVING → ONGOING → COMPLETED)
 - Fare amount
2. Tap "**View Map**" to open a live map showing:

- Your current location (blue dot)
- Driver's real-time location (car icon)
- Route line between you and the destination

Ride Status Explained

Status	Meaning
■ SEARCHING	Looking for a nearby driver
■ CONFIRMED	Driver accepted your request
■ ARRIVING	Driver is on the way to your pickup
■ ■ ONGOING	Ride in progress — you are in the vehicle
✓ COMPLETED	Ride finished, fare deducted from wallet
■ CANCELLED	Ride was cancelled

Cancelling a Ride

- Tap **"Cancel"** on the Active Ride Banner
- The screen returns to the Home dashboard immediately
- The ride is marked cancelled in the background

7. Refa Wallet

Checking Your Balance

Your wallet balance is displayed on the **Home screen wallet card** and on the **Profile screen**.

Adding Money (Top-Up)

1. On the Home screen, tap **"Add Money"** on the wallet card
- OR — Go to Profile → tap **"Add Funds"**

2. Enter the amount you want to add (minimum Rs. 100)
3. Tap **"Add"**

Note: In the current version, top-up simulates balance addition. Real payment gateway (EasyPaisha/JazzCash) integration is planned for the next future version.

How Payments Work

- When a ride is **completed**, the exact fare is automatically deducted from your wallet
- The fare is transferred to the driver's wallet via a secure Firebase transaction
- You cannot book a ride if your balance is lower than the estimated fare

8. Ride History

1. From the Home screen, tap the **History** icon (or navigate via menu)
 2. View a list of all your past rides, showing:
 - Pickup and drop addresses
 - Date and time
 - Fare paid
 - Ride status (Completed / Cancelled)
-

9. Profile Settings

Access your profile by tapping the **Person icon** on the Home screen.

What You Can Do in Profile:

- **Change Profile Picture** — Tap your avatar to upload a photo from your gallery
 - **Edit Name** — Tap the edit icon next to your name
 - **Update Phone / Address** — Edit personal information
 - **Add Vehicle** — Required before enabling Driver Mode
 - **Add Funds to Wallet** — Top up your Refa Wallet
 - **Enable Driver Mode** — Switch to earning as a driver
 - **Logout** — Securely sign out of your account
-

10. Driver Mode — Earning with Refa

Before You Start

To become a driver on Refa, you need:

- A registered Refa account
- Your **vehicle information** (model, plate number, type)
- An Android phone with GPS capability
- A stable internet connection

Enabling Driver Mode

1. Go to **Profile** → **Become a Driver**
2. First, add your vehicle details if not already added:
 - Vehicle Model (e.g., Honda CD 70, Toyota Corolla)
 - License Plate Number
 - Vehicle Type (Bike / Rickshaw / Car / Premium)
3. Read and accept the **Driver Policy** (terms and conditions)
4. You will be redirected to the **Driver Dashboard**

15-Day Driver Lock

- Once you activate Driver Mode, there is a **15-day commitment period**
- During this period, you cannot switch back to Passenger Mode
- This prevents abuse of the dual-mode system

- The lock is stored in Firebase and survives app reinstalls

11. Driver — Accepting Ride Requests

On the Driver Dashboard:

1. **Available Requests** shows ride requests matching your vehicle type
2. Each request card shows:
 - Passenger name
 - Pickup address
 - Drop address
 - Fare amount (PKR)
3. Tap **"Accept"** on a request you want to take
4. If another driver accepts first, you'll see: "Ride no longer available"
5. Push notifications alert you of new ride requests even when the app is in the background

Tip: The available rides list is filtered to your vehicle type — you only see relevant requests.

12. Driver — Managing an Active Ride

Once you accept a ride:

1. Drive to the **pickup location** and tap **"I've Arrived"** (status → ARRIVING)
2. When the passenger is in the vehicle, tap **"Start Ride"** (status → ONGOING)
3. Drive to the destination
4. When you arrive, tap **"Complete Ride"** (status → COMPLETED)
5. The **fare is automatically transferred** from the passenger's wallet to yours
6. You're now free to accept the next ride

Cancelling a Ride (Driver)

- Tap **"Cancel Ride"** if you cannot complete the trip
- The ride returns to **SEARCHING** status for the passenger

13. Troubleshooting

"Getting your location..." stuck on screen

- Ensure **GPS is turned ON** in Android Settings
- Grant **location permission** to Refa: Settings → Apps → Refa → Permissions → Location → Allow all the time
- Restart the app — it automatically retries location once permission is confirmed

"Low balance" error when booking

- Your wallet balance is less than the estimated fare
- Go to Profile → Add Funds, or tap "Add Money" on the wallet card

Driver not assigned (stuck on "Searching...")

- No drivers with your vehicle type are currently online
- Try a different vehicle type, or wait a few minutes and try again

Notifications not showing

- Go to Android Settings → Apps → Refa → Notifications → Enable all
- For Android 13+: Refa requires notification permission — grant it when prompted

App crashes or freezes

- Close and reopen the app
- Check your internet connection (4G or Wi-Fi required)
- If the problem persists, uninstall and reinstall the APK

14. Contact Support

For help, issues, or feedback, contact our support team:

■ **WhatsApp:** +92 3335 6939365 ■ **Email:** faisaltehseenmehdi@gmail.com

Support hours: 9:00 AM – 9:00 PM (Pakistan Standard Time)

Thank you for using Refa — Your Ride, Your Way! ■ ■ ■
